

## **CIRCUSTALK ANNOUNCES NEW EVENTS FEATURE TO IMPROVE CIRCUS REACH IN THE INDUSTRY**

**New EVENTS feature on Circus Talk will help the international circus world connect**

CircusTalk is pleased to announce that it has a new EVENTS feature!

Since the launch in June of 2017 CircusTalk's membership has been increasing exponentially, currently with members from 137 countries. In order to keep up with the needs of our expanding network of professionals, Circus Talk decided to add this feature. There was a need for companies to share their tour information, for circus schools to inform the wider public about auditions and workshops, and for organizations to spread the news about grant opportunities, to name just a few examples of how we hope to see this new facet being utilized.

EVENTS is a much anticipated feature that will allow you to inform the community about upcoming events you are organizing, such as: conferences, conventions, grant applications, intensive and master classes, school applications, webinars, and workshops and more.

It's simple. Members can post events by clicking on the POST AN EVENT button in the EVENTS menu and filling in the details!

Don't be left out of the search. Post your event on CircusTalk today!

### About CircusTalk

CircusTalk is the fastest growing professional social network and marketplace of the international circus industry. Registration is free and available to all types of circus community members. Members can promote their products and services, open and browse acts and show pages, post and view jobs, auditions and connect with circus professionals and industry leaders and develop business prospects.
